# REGISTRAR'S MESSAGE

**Prof. Dr. D. M. Jadhav**  
**Registrar**

Law is always instrumental in bringing about new changes in society. Legal education in India has changed in tune with evolving socio-legal complexities and cutting-edge technology. A quality legal education develops the professional dynamism required for social engineering, lawyers, judges, and corporate officers. As an institution of national importance, Maharashtra National Law University, Aurangabad, also imbibes values in addition to skill building so as to strengthen the employability of our students.

India as a country is one of the fastest-growing economies in the world, continuously faced with challenges of justice, inequity, exclusion and progress. The study of the Masters of Public Policy informs the state as to how it could respond to the new dynamic challenges that emerge in society. As every legislation requires clear policy formulation, there is a demand for trained professionals who will be equipped to design, implement

and evaluate policies and programmes. We derive inspiration from our transformative Constitution while addressing the contemporary challenges of a pluralistic society. We train young professionals to become policy practitioners capable of supporting inclusive and sustainable development focusing on the interface between policy and law as our niche area. We emphasize a dialectical pedagogy that encourages students to question the complexities in the practice of public policy arising from real-life situations of people from a diverse set of social and economic backgrounds. Maharashtra National Law University Aurangabad, a premier Law University in the country, offers a Master's Programme in Public Policy a two-year interdisciplinary programme with a special thrust on the law as an interface between inclusive sustainable development and public policy.

# POLICY LAB

The Policy Lab is an open and collaborative space where students can show their inventive side and develop expertise in the practice of solving public problems. Courses from the Lab are designed to ensure that students have the opportunity to tackle socially relevant and topical policy issues, understand the interests of stakeholders, and develop concrete solutions with a method of policy design based on an approach grounded in the field.

The Lab engages a large ecosystem of actors, from the public and private sectors and the civil society, and encourages them to collaborate in order to address a practical policy issue relevant to the common good. Our methods are grounded in evidence, participation and experimentation.

## EXPERIENCES

## EDUCATIONS

Policy Lab radically improves policy-making through design, innovation and people-centred approaches.

## SKILLS

We bring multidisciplinary expertise to help teams understand the present, imagine the future and design ways to achieve the policy impact they intend
